CAMARC DESIGN RB-M for the USCG

After a 4 year process including prototype evaluation against 2 other craft the Camarc designed Kvichak built craft left the others in her wake. A contract for up to 250 of the alloy 13.6m (45') 40 knot+ self-righting craft has been signed by the United States Coastguard with the prime contractor Marinette Marine with Kvichak Marine to build 50% of the craft.

- Self-righting
- Twin waterjet
- Aluminium construction
- Up to 250 to be built..
