

Patrol... Ferry....Pilot Boats....RIB's

We design workboats.....

<< NEW 20m PATROL BOATS.

One of the largest small boats contracts in recent years for 22 craft has been won by our long term clients RAIDCO Marine, France. This is a project for 20m GRP Patrol Boats ,twin screw with a full load speed of 25 knots. Raidco and their partners CNB, part of the Beneteau Group, are underway with the first of class set for an early 2003 delivery.

FAR EAST FAST FERRY

A 16.8m aluminium 25 passenger Crewboat-Ferry built by Greenbay Marine, Singapore and delivered in January this year. She has twin waterjets for 25 knot full load, 30 knots light and is built to ABS Class.

Local Ferry...

'Spirit of Gosport' 32m Ferry for Portsmouth Harbour entrance is in service and proving popular with the thousands of passengers who use this busy crossing.

Twin steerable Veth rudder propellers linked to Scania Diesel engines forward and aft provide the manouverability required on the short crossing. This picture shows her in 'cruise mode' during the International Festival of the Sea.

22m Pilot Boat for the Pacific Pilotage Authority

PILOT BOATS.... 2 more 22m aluminium CAMARC Pilot Boats are building in North America. The boats are both 25 knot plus and will operate in very different climates. The Pacific Pilotage Authority, Canada, will station their new boat at Prince Rupert near the border with Alaska while the Kvichak built boat is for Sabine, Texas.
