

ABOUT US

Camarc Design is based in the UK and is one of Europe's leading small craft design firms specialising in the design of seaworthy high speed working craft ranging from 5m - 70m with speeds up to 45+ Knots. Pilot Boats, Patrol Boats, SAR Craft, Ferries, Crew Boats and general Workboats are included within our portfolio of proven designs.

MAJOR SAR OPERATORS

- United States Coast Guard
- Malaysian MMEA Coast Guard
- Turkish KEGM Rescue & Salvage
- China Rescue & Salvage
- Canadian Coast Guard
- North Sea Offshore
- + Many more

SAR Features

- High speed rapid response
- MOB Rescue Systems
- FiFi capability
- Self-righting

Materials

- Aluminium
- Steel
- GRP composite

Propulsion

- Waterjet
- Propeller

Summary of proven SAR designs in service shown, see website for full range.

12m - MARTINIQUE

20m - MALAYSIA

15m - UK

15m - CHINA

22m - TURKEY

18m - NEW ZEALAND

11m - YEMEN

22m - USA

8m - UK

U.S COAST GUARD 13.6m RB-M, 180+ Fleet

• CAMARC DESIGN • SAR BOATS

Camarc Design SAR Craft are in use by leading Rescue agencies world-wide. Our unique double chine hull delivers the speed and all-round seakeeping capability essential for SAR operations. Lightweight construction in aluminium or composite is the usual choice in build material for high speed. Propulsion is waterjet for many craft, with some using fixed or cpp propellers. Our designs have a range of speed dependent on power and propulsion with some capable of 45+ Knots. Self righting is an integral part of most of these designs, an inherent ability on our larger craft not dependent on closing flaps or air assist inflation bags.

SELF-RIGHTING TEST
