. CAMARC DESIGN . PILOT BOATS

Camarc Design Pilot Boats range from 8m davit launched daughter craft up to 23m pilot vessels. Our designs are built in steel, aluminium alloy and composites. Propulsion both propeller and waterjet. Speed with seakeeping ability is the hallmark of our designs. Camarc Pilot Boats are in service with Pilotage Authorities Worldwide and used for rough weather operations, some featuring self-righting capabilities. With over 130 pilot vessels in service and over 30 years of design experience and evolution, these vessels are packed full of design features and are tailored directly towards the very specific role of pilotage.
